VERKAUF VERWALTUNG VERMIETUNG ERNEUERUNG

NO MODERNISATION WITHOUT AN OVERALL APPROACH. IF WE ACCEPT THIS, WE HAVE ALREADY TAKEN A FIRST GOOD STEP.

A mandate to renovate normally includes the following services:

- Onsite supervision of renovation, rebuilding, conversion and replacement work
- Coordination of experts in the deployment of resources
- Establishing the current situation, with recommendations on how to proceed
- Expert advice on all structural and technical issues
- The handling of invitations to tender for building work
- Verification and comparison of quotations
- Summaries of costs and completion deadlines
- The awarding of orders to the craftsmen involved
- Coordination of onsite suppliers of building services
- Monitoring of craftsmanship, completion quality and progress
- Monitoring of deadlines and cost control
- If desired: acceptance of overall responsibility, with reports to the building client
